

REQUEST FOR PROPOSALS

**DISASTER MONITORING AND RECOVERY SERVICES
RFP # 2014-08-02**

**SUBMISSION DEADLINE
4:00 PM - MONDAY - SEPTEMBER 8, 2014**

The County of Camden is accepting sealed responses from qualified firms for disaster Debris Monitoring Services in accordance with Federal Emergency Management Agency (FEMA) guidelines. Copies of the RFP are available on the County website at www.camdencountync.gov.

**REQUEST FOR PROPOSALS
FOR
DISASTER MONITORING AND RECOVERY SERVICES
RFP # 2014-08-02**

I. PURPOSE:

This Request for Proposal (RFP) is issued by the County of Camden (hereinafter referred to as the "County").

The County requires disaster management, recovery, and consulting services to support the oversight and management of debris recovery contractors. Other services include, but are not limited to, facilitating communication with FEMA, FHWA, the State of North Carolina and other state, local and federal agencies. It is the intent of this Request for Proposal (RFP) to obtain fixed price proposals from firms specializing in Debris Monitoring and Recovery Services. The intent is to enter into a pre-event contract, which would result in no immediate cost to the County and would be in effect for a period of three (3) years with the option of two (2) additional one (1) year terms.

INSTRUCTIONS TO PROPOSERS:

One (1) original and three (3) copies of proposals **must** be submitted in a sealed package by **4:00 PM Tuesday, September 8, 2014** to the County in accordance with the instructions provided in this RFP as follows:

**County of Camden
Attention: County Manager
P.O. Box 190
Camden, NC 27921**

Express or hand deliveries may be sent to:

**Camden County Manager's Office
Attention: County Manager
330 US 158 East
Camden, NC 27921**

The proposal shall be clearly marked "Debris Monitoring Proposal" along with RFP 2014-08-02 on the outside of the proposal package. Proposers shall include all documents necessary to support their proposal and include them with their proposal.

Proposers assume the risk of the method of dispatch chosen. The County assumes no responsibility for delays caused by any delivery service. Postmarking by the due date will not substitute for actual proposal receipt by the county. A proposer's failure to submit its proposal prior to the deadline will cause the proposal to be rejected. Late proposals or amendments will not be opened or accepted for evaluation.

Copies of the RFP will only be made available on the County website at www.camdencountync.gov.

Proposers may submit questions about the RFP to Angela Wooten on or before September 2, 2014. Questions must be in writing and submitted by e-mail to awooten@camdencountync.gov. Questions will not be accepted over the telephone and anonymous questions will not be answered. All questions and answers will be posted on the County's website at www.camdencountync.gov. The County reserves the right to provide a combined answer to similar questions. *Please check the website for updated information before submitting proposals.*

Exceptions to the Request for Proposal (RFP)

It is anticipated that Proposers may find instances where they may take exception with certain requirements or specifications of the RFP. All exceptions shall be clearly identified, and written explanations shall include the scope of the exceptions, the ramifications of the exceptions for the County, and a description of the advantage to be gained or disadvantages to be incurred by the County as a result of these exceptions.

Complete responses to each of the following categories are required. All submittals must contain the following information:

1. Submittals

The Request for Proposal document should include all information requested and any other information thought to be relevant to completely address the Request for Proposals (RFP) requirements. Should the proposer fail to address all requirements of the RFP, or fail to provide adequate or complete documentation, as determined by the evaluation committee, the proposer's proposal may be eliminated from further consideration. Each proposal shall be organized and bound separately (should be tabbed and/or labeled for ease of reference), and shall include at a minimum, the following to be considered **responsive** to the RFP:

- The Request for Proposal document with any addenda acknowledgements filled out and signed as required. The person that signs the RFP shall have the authority to negotiate the full scope of the offered services and provisions on behalf of the organization and shall be authorized to bind the contract to the terms and conditions of this RFP.

Mandatory requirements are those required by law or regulation, as such they cannot be waived, and are not subject to negotiation.

- Proposers are to make written proposals which present the proposer's qualifications and understanding of the Tasks to be performed. The proposer's proposal should provide all information which it considers pertinent to its qualifications for this project. The proposal should be submitted on 8-1/2 x 11 inch paper, numbered, typewritten, with headings, sections and sub-sections identified appropriately.

2. Proposal Format

Complete responses to each of the following categories are required. All submittals must contain the following information:

- **Introduction- Executive Summary and Company Information:**

- Executive Summary - The purpose of the Introduction is to provide information about the Proposer, as well as the Proposer's approach to this type of contract. Specifically, the executive summary should be written in non-technical language that can be clearly understood by non-technical County officials. The section should be concise and should present only information that is relevant to this RFP.

- **Each respondent shall provide the following company information:**

- Proposer's name and business address, including telephone and fax number, email address, website address.
- The type of Proposer (individual, partnership, corporation, etc.) and list the names of all partners, principals, etc.
- Year established. Include former Company name(s) and year(s) established, if applicable.
- The name, title, address and telephone number of the Proposer's primary contact for this contract. The person identified must be empowered to make binding commitments for the Proposer and its subcontractors.
- A copy of the most recently audited financial statement.

- **Contractor's Qualifications**

- Provide evidence of satisfactory completion of disaster debris monitoring in the past at similar jurisdictions by providing the:
 - Type of disaster: hurricane, tropical storm, tornado, flood, etc.
 - Type of jurisdiction: city, county, or combination, collection and Debris Management Sites (DMS) DMS debris monitoring assignments.
 - Numbers of monitors deployed.
 - FEMA/FHWA reimbursements actions and issue resolution.
 - Sub-consultant(s)/subcontractors that are proposed for this project.
 - List of disaster specific experience within the last five (5) years, including the name of each client, a contact person/address/telephone number/email address, the size of each project, the project scope, project budget, and operational duration and the response time.

- Provide an organizational chart, resumes, and summary of staff qualifications. Key project staff (management staff including, but not limited to: project manager, collection and disposal operations managers, FEMA reimbursement specialist, data manager, etc.) must be full time employees of the proposing firm and have experience, working for the Proposer, in the following:
 - Experience demonstrating current capacity and current expertise in debris removal, solid waste and hazardous waste management and disposal. The proposer must demonstrate experience managing disaster debris monitoring for at least five local governments involving a minimum of 1,000,000 cubic yards of debris for each client.
 - Documented knowledge and experience of Federal, State and Local emergency agencies, state and federal programs, funding sources and reimbursement processes.
 - Experience with special disaster recovery program management services including private property/right-of-entry (ROE) work, waterways clean-up and reimbursement, leaning tree and hanging limb removal, hazardous material removal, vessel and vehicle recovery, asbestos abatement, data management, and hauler invoice reconciliation and contracting, and FEMA appeals assistance.
- **Technical Approach**
 - Provide a description of the Proposer's approach to the project, to include startup procedures/requirements, debris estimate methodology, analysis of debris recovery operations and management of the debris recovery contractors, billing/invoices reporting procedures to FEMA and the County.
 - Provide a copy of proposer's internal training program.
- **Insurance Certificates**
 - Contractor shall furnish a certificate from the insurance carrier or carriers showing such insurance as listed in Insurance Requirements in this RFP full force contract. This insurance shall be maintained for the term of the contract. At awarding of Contract, Certificates of Insurances shall be filed with the Owner and shall list the Owner as additional insured.
- **Hourly Rates and Fees**
 - Submit an hourly billing rate schedule for all required staff that will be assigned to work on this contract. Rates are to be fully loaded. No separate cost for per-diem, lodging, communications, mobilization and de-mobilization, and travel may be considered.
- **Non-Discrimination Statement/Compliance with Laws**
 - Statement that Contractor will meet all program standards as provided for in the Public Works Annex to the NC Emergency Management Plan and in accordance with FEMA Public Assistance regulations, policy, and guidance.

- Contactor agrees to comply with the Fair Labor Standards Act, Equal Opportunity Act, and all other applicable Federal and State laws, regulations, and executive orders to the extent that the same may be applicable and further agrees to insert the foregoing provision in all subcontracts awarded.
- In an effort to provide Minority and Women owned Business Enterprises (MWBES) with equal opportunity for participating in selling goods and services to the County, Proposers are required to make a Good Faith Effort to subcontract, where applicable, with or to purchase supplies from MWBES.
- **Claims**
 - Claims/litigation history, claims resolution, and status of the claims.
- **Existing Contracts**
 - List all existing contracts the Consultant has in Virginia and North Carolina.
- **Other Requirements**
 - Provide a time line detailing the pre-event planning (based on hours/days after award).
 - Provide a conceptual Operations Plan and budget responding to a Task Order issued after a disaster declaration with an estimated 500,000 cubic yards of debris in the County.
 - Clerical staff to support data entry of emergency clearance time and equipment tickets, loading site tickets, final disposal load tickets, assimilation of monitors' daily documents and summary reports, and contractor invoice reconciliation.
 - GIS support to provide debris removal contractors' physical daily progress on the project, physical location (origin) of hazardous tree, limb, and stumps geocoded.
 - List any resources and budget required to provide monitoring services to complete the project.

II. TERMS AND CONDITIONS:

1. Right of Rejection and Clarification

The County reserves the right to reject any and all proposals, to waive minor irregularities in the evaluation process and to request clarification of, or additional information from any Proposer. The County also reserves the right to negotiate separately with competing contractors, and to waive any informalities, defects, or irregularities in any proposal. The County is not obligated to enter into a contract on the basis of any proposal submitted in response to this document, is under no obligation to award this project to the Proposer having the lowest fee estimate and reserves the right to award a contract deemed most advantageous for the County.

2. Request for Additional Information

Prior to the final selection, Proposers may be required to submit additional information which the County may deem necessary to further evaluate the Proposer's qualifications.

3. Denial of Reimbursement

County will not reimburse proposers for any costs associated with the preparation and submittal of any proposal, or for any travel and/or per diem cost that are incurred.

4. Rights to Submitted Material

All proposals, responses, inquiries, or correspondence relating to, or in reference to, this RFP, and all reports, charts, and other documentation submitted by proposers shall become the property of the County when received.

5. Period of Contract

The contract shall be for a base period of three (3) years with an option to renew for an additional two (2)-additional one (1) year terms, upon consent of all parties. The contract shall only be used on an "as needed" basis as determined solely by the County and there shall be no retainer paid in order to keep the Contract in effect.

6. Independent Contractor

- The Proposer represents itself to be an independent contractor offering such services to the general public and shall not represent himself or his employees to be an employee of the County. Therefore, the Proposer shall assume all legal and financial responsibility for taxes, FICA, employee fringe benefits, workers compensation, employee insurance, minimum wage requirements, overtime, and other expenses, and agrees to indemnify, save, and hold the County, its officers, agents, and employees, harmless from and against, any and all loss; cost (including attorney fees); and damage of any kind related to such matters. The Proposer shall further understand that the County cannot save and hold harmless and/or indemnify the Proposer and/or the Proposers employees against any liability incurred or arising as a result of any activity of the Proposer or any activity of the Proposers employees performed in connection with the contract.
- The Proposer represents and warrants to the County that the Proposer has, or shall secure at its own expense prior to the commencement of services hereunder, all necessary personnel required to perform the services under this contract. All services required of Contractor hereunder shall be performed by Contractor, or under its supervision, and all personnel engaged in performing such services shall be fully qualified, and if necessary, authorized under applicable law to perform such services. The Proposer represents and warrants to the County that all services shall be performed by skilled and competent personnel to the highest professional standards in the field. The Contractor shall remove from the work described in the Contract any person the County deems to be incompetent, careless or otherwise objectionable.

7. Termination Clauses

- **Failure to Provide Service:** The County may cancel the contract at any time for breach of contractual obligations by providing the successful Proposer with a written notice of such cancellation. Should the County exercise its right to cancel the contract for such reasons, the cancellation shall become effective on the date as specified in the notice of cancellation.
- **Authority to Terminate:** The County Manager is authorized to terminate the contract on behalf of the County.
- **Termination for Convenience:** The County shall have the right to terminate the contract without cause and at its convenience, when the County determines that it is in its own best interest to so terminate the contract.

8. Performance

- All payments under the contract resulting from the RFP shall be made only for services requested and approved by the County. No work effort will begin without written authorization (Notice to Proceed) from the County or its designee. The Contractor shall work on locations specified and prioritized by the County. Following activation by County, work shall continue until the Contractor receives written notification from the County that the services being provided are no longer required and should cease as of a specified date.
- The Contractor shall promptly correct all work rejected by the County as failing to conform to the Agreement. The Contractor shall bear all costs of correcting such rejected work.
- The County will make the final decision regarding any and all disputes regarding project work compliance which may arise between the Debris Removal Contractor and the Debris Monitoring Contractor.

9. Access and Audits

The Contractor shall maintain adequate records to justify all charges, expenses and cost incurred in performing the services for a period of at least three (3) years. The County shall be entitled to audit the books and records of the Contractor or any sub-Contractor thereto to the extent that such books and records relate to the performance of the Agreement or any sub-contract to the Agreement.

10. Safety

The Contractor shall be solely responsible to assure the safety of their personnel in all activities that they, and their Sub-Consultants, perform. The Contractor shall also provide and take measures to protect the public and County personnel during their activities. Actions may include but are not limited to removal of unsafe equipment and unsafe personnel. Contractor will also be solely responsible to ensure that all Contractors' personnel are compliant with OSHA workplace requirements and are familiar with and adheres to the Debris Removal Contractors' Safety Plan at the debris loading site and Debris Management Sites (DMS). The DMS Field Supervisor or his designated DMS site monitor shall accompany the Debris Removal Contractors' Project Safety Officer on the daily DMS Site Hazard Analysis Inspection.

11. New Services

From time to time during the period of work outlined in the RFP and afterward, the County may elect to have the Contractor perform services that are not specifically described in the Statement of Work but are related to the contracted services. The "New Services", in which the Contractor shall perform, will be on a time-and-materials basis, and at an hourly rate that does not exceed the hourly rate negotiated in the contract for each of the contractor personnel assigned to perform such New Services. This will be accomplished through an amendment to the contract and subsequent issuance of a work site and scope specific Task Order.

III. SCOPE OF SERVICES

1. The County is seeking the services of qualified Consultants or individuals with extensive knowledge and background in providing disaster debris management and monitoring services to include all management, supervision, labor, transportation, and equipment necessary to initiate load tickets at debris loading sites, estimate the volume of debris being delivered to the DMS(s) and final disposal site(s), and support the operations of the field supervisor(s), debris loading and observation tower monitors and clerical staff. Unless otherwise requested in writing, the scope of services is defined as work eligible under FEMA Public Assistance regulations, policy, and guidance. It will be the responsibility of the monitor to adhere to all federal debris eligibility regulations, policy, and guidance. Any monitoring services performed that are not in adherence with federal debris eligibility regulations, policy, and guidance will not be reimbursed by the County and will be the responsibility of the monitor. Monitoring services may include eligible debris generated from the public rights-of-way, private property, drainage structures, public use areas, parks, county and other eligible local government public facilities. These Disaster Debris Monitoring Services include but are not limited to:

- Coordinating daily briefings, work progress, staffing, and other key items with the County Debris Manager or his authorized representative, County Staff, and Debris Removal Contractor.
- Scheduling work with all team members and contractors on a daily basis.
- Hiring, scheduling, and managing field staff.
- Monitoring debris removal contractor operations and making/implementing recommendations to improve debris removal and monitoring efficiency to expedite recovery work.
- Assisting the County with responding to public concerns and comments.
- Certifying contractor hauling units for debris removal and final disposal using methodology and documentation practices as provided in latest edition of the Federal Emergency Management Agency (FEMA) Public Assistance Debris Monitoring Guide.
- Entering load tickets into a monitoring Consultant provided database application.
- Digitization of source documentation (such as load tickets).
- Developing daily operational reports to keep the County informed of work progress.
- Development of maps, GIS applications, etc. as necessary.
- Digitally photographing before and after pictures of each hazardous tree, limb and stump removed; capture GPS coordinates and time-stamp each removal.
- Monitor and document activities and hours of operation of grinding operations.
- Monitor and document activities and hours of operation of wood chip/processed material hauling and disposal, including verification of weights or volumes of materials and final disposition/disposal site(s).
- Comprehensive review, reconciliation, and validation of debris removal contractor(s) invoices prior to submission to the County for processing.
- Assimilation of County's copies (original and loading site monitor) of load tickets, Daily Debris Loading Site Monitor Log and Daily report, DMS Monitoring Log, debris removal Contractor Truck Certification, Daily Debris Collection Summary Spreadsheet and any other documents in support of Debris Removal and Debris Monitoring Project Worksheets.

The Debris Monitoring Consultant may also be requested to provide the following services if tasked by the County:

- Procurement assistance for debris removal contractors and other services as requested
 - Selection and permitting of Debris Management Sites (DMS(s) locations and any other permitting/regulatory issues as necessary,
 - Project management to include the formulation and management of permanent work projects, task force management, and Boards and Committees.
 - Technical support and assistance in developing public information.
 - Other training and assistance as requested by the County.
 - Other reports and data as may be required by the County.
 - Other debris management/consulting services identified/required and tasked by the County.
2. Upon Notification to Proceed, the Proposer shall be prepared to provide qualified, on-site personnel to monitor debris receiving operations at the DMS located throughout the county. The Proposer must be prepared to provide DMS Monitors as necessary and needed to monitor and verify eligible debris removal functions (A minimum of two staff per debris site is required). The Monitors shall observe all vehicles entering exiting the TDSR sites ensuring all vehicles are in good repair and safe with secure side boards. No vehicle will be allowed to enter a DMS site without a tailgate.
3. All loads must be monitored in the field by collection monitors. The proposer shall provide a Field Quality Control Team consisting of one (1) monitor per recovery crew and at least one (1) field supervisor for every six (6) monitors unless otherwise approved by the county. Examples of field monitoring tasks include, but are not limited to:
- Verification that all debris picked up is a direct result of the disaster.
 - Verification that the Debris Removal Contractor is working in their assigned contract area.
 - Inspecting work in progress to ensure that removal efforts include debris of the proper type in the proper areas.
 - Maintain all photo documentation of recovery work on a daily basis. All photos presented shall show the description in detail of hanger, stumps and leaner removal.
 - Reporting to the County any work performed for the Debris Removal Contractor that is not in compliance with all federal, state, local safety regulation appropriate for the task being performed.
 - Ensuring every debris-hauling vehicle is certified prior to performing debris collection hauling and that each collection vehicle has been weighed and placarded.

IV. AUTOMATED DEBRIS TRACKING AND REPORTING SYSTEMS

Per FEMA policy document 327 Public Assistance Debris Monitoring Guide, *Recent advances in automated debris management tracking systems have provided real – time and automated tracking and reporting...FEMA embraces technological advancements and recognizes the potential benefits of these automated systems.* Proposer must demonstrate in its proposal that it maintains on hand sufficient automated debris tracking equipment dedicated to meet the needs of the County.

1. The Automated debris tracking equipment should:

- Electronically collect all data and reporting elements required for reimbursement and payment of performed work and require all entities involved to work off the same set of data;
- Provide real-time or same day transmission of ticket data;
- Make data available to all parties involved via secure website and provide granular security by project, contractor, subcontractor, and independent haulers;

2. Electronic Data Collection

The Automated Debris Management System (ADMS) shall provide the following data collection features:

- Certification - Record all projects assets including, but not limited to, project personnel and equipment. These records shall include the project name, the subcontractor, contact information, and photo identification as well as any other information deemed necessary for the execution of the project and its reporting requirements. Truck certification data will include detail dimensions, capacity and weights of hauling units. The collected information must be transferrable to a central database and made available to DMS site locations in real-time or a daily batch update.
- Electronic collection - Loading site/origin information shall be performed by collection monitors without any handwritten information and shall be electronically generated. The system must be capable of capturing the following data elements efforts.
 - Unique Load Ticket Number;
 - Municipality/Applicant;
 - Task/Project Code, if applicable;
 - Truck Number;
 - Material type;
 - Date/Time Loaded;
 - Loading Collection Inspector/Monitor;
 - Location Address or Latitude/Longitude;
 - Additional Notes, if applicable;

- DMS (Debris Management Site) Site Ticketing – System will provide electronic collection of data elements generated by collection monitors above. System shall provide verification of truck certification data and be capable of providing photo documentation of each hauling unit. The ADMS shall be capable of producing an electronically generated 4-part printed ticket at the DMS and not require any hand written tickets elements. Records shall, at a minimum, capture the following data elements :
 - Unique Load Ticket Number;
 - Municipality/Applicant;
 - Task/Project Code, if applicable;
 - Truck Number;
 - Volume Capacity;
 - Material type;
 - % Full and/or Actual Cubic Yards or Weight;
 - Load Date/Time;
 - Collection Monitor ID Number;
 - DMS Site Monitor ID Number;
 - Unloading Date/Time;
 - Unloading Inspector/ QA Monitor;
 - DMS Name/Identifier;
 - Load Location Address or Latitude/Longitude;
 - Additional Notes, if applicable;

3. Data Transmission

The system shall be required to transmit data at timed intervals by operator to central database via secure Internet connection (SSL, Secure FTP, etc.) and post the above records, at minimum, every hour if cellular service is available. In the event cellular service is unavailable the system will be required to post records at end of day before processing of next day's loads.

4. Data & Website Access

The system shall provide access to all load ticket data and DMS ticket data over secure Internet (SSL) via platform independent web browser. In addition to queries and reporting capability, the system shall provide GIS mapping of load data elements based on the load origin as well as DMS data elements based upon the debris' destination. The system shall require each user to have a unique username & password to access the data.

The following methods of query capability shall be available to each, independent user -

- Ticket Date Range;
- Ticket Number;
- Task/Project Code, if applicable;
- Contractor/Subcontractor;
- Truck Number;
- Truck Capacity;
- DMS Name/Identifier;
- % Full and/or Actual Cubic Yards or Weight;
- Haul Distance (0-15 Miles, 16-31 Miles, 31+) based on load origin;
- Collection, Load site, monitor;
- Load Collection time;
- DMS site monitor;
- Off-Load time;
- Material Type;

5. Stumps & Leaner/Hangers

Stumps - The system must be capable of recording Stump tickets by measuring the stump diameter in addition to recording the same elements recorded by cubic yard load collection monitor. Also, each handheld unit shall be capable of capturing a picture ID of the stump and associating that picture with each measured stump. The DMS site must be capable of recording the stump ticket recording similar data elements and differentiating those loads from normal cubic yard tickets. The system shall also be capable of converting stump CY quantities based on the published FEMA conversion table.

6. Debarred or Suspended Subcontractors

Contractor shall not subcontract, and shall ensure that no subcontractors are awarded at any tier, to any individual, firm, partnership, joint venture, or any other entity regardless of the form of business organization, that is on the Federal Excluded Parties List System (EPLS), State Purchasing Exclusion listing, or other local government entity. This includes pending litigation or claims with the County or other government entities. Contractor shall immediately notify the County in the event any subcontractor is added to a Federal, State or other Government Entity listing after award of the subcontract.

7. Other Considerations

- The monitoring firm shall supervise and direct the work using skillful labor and proper equipment for all tasks. Safety of the firm's personnel and equipment is the responsibility of the firm. Additionally, the firm shall pay for all materials, personnel, taxes and fees necessary to perform under the terms of the awarded contract.
- The monitoring firm shall be duly licensed in accordance with the state and County's statutory requirements to perform the work.
- The Contractor must have a representative present in the Emergency Operations Center within thirty-six (36) hours of Notification to Proceed and be able to mobilize required equipment and personnel to the designated location within forty-eight (48) hours of Notice to Proceed. If necessary, the Contractor may need to pre-stage in the region if there is sufficient indication of a likely event.
- The Contractor shall utilize or sub-contract with local contractors to perform the monitoring work to the greatest extent possible when needed to supplement Contractors' employees.
- Proposer must provide all equipment, tools, supplies and training to all personnel that is necessary for them to perform their responsibilities.
- The Contractor shall provide all necessary security and oversight for all operations.
- The Contractor shall provide sufficient traffic control and warning devices for conducting work on streets and highways.
- The Contractor shall be responsible for reporting to Pasquotank-Camden Emergency Management and cleaning up all spills caused by the by the contractor's operation at no additional cost to the County or any other governmental entity. Immediate containment action shall be taken as necessary to minimize effect of any spill or leak. Cleanup shall be in accordance with applicable federal, state, or local laws and regulations.
- Assigned debris monitors shall be able to prepare manifests/Debris Load Tickets, measure/identify trucks and equipment, read maps and possess good oral communication skills, as defined by the County.
- Debris monitors must possess a valid North Carolina driver's license as required to perform their assigned job as monitors.
- Proposers must disclose any instance where the firm or any individuals working on the contract has a possible conflict of interest and, if so, the nature of that conflict. The monitoring firm should have no vested interest in the debris removal contractor, or the hazardous trees, limbs and stumps contractors.
- The County may elect to complete monitoring services with its own forces, volunteers, or other resources and/or activate the contract resulting from the RFP. Further, no amount of work is guaranteed under the contract, and the County may terminate the contract(s) awarded without cause at the County's convenience. In such event, the firm shall be paid for work performed through the date of termination.

V. PERFORMANCE AND PAYMENT BONDS:

- 1.** The awarded Contractor shall furnish and deliver to the County a Payment Bond and a Performance Bond covering the faithful performance and completion of the work included in the executed contract and payment for all materials and labor furnished or supplied in connection with the work included in the executed contract. Said bonds shall be issued and furnished to the County within (7) days of written Notice to Proceed. As this contract is on a standby emergency basis, the County must be certain that the Contractor has the capability to obtain, within a few days, in the face of a major disaster, a surety bond to cover the extensive emergency work with may be required and which work must be initiated almost immediately. Therefore, to ensure such capability, the County requires the Contractor to provide a signed Letter of Commitment from their surety company meeting the requirements delineated above, with their proposal in the form and containing the required terms and conditions set forth herein.
- 2.** Each of the Payment Bond and Performance Bond shall be furnished on behalf of the Contractor, shall name Camden County obligee, and shall be in an amount equal to one hundred percent (100%) of the contract price to ensure the successful performance of the terms and conditions of the contract. Such bond(s) shall be solely for the protection of County. The Payment Bond and the Performance Bond shall be issued by a surety of financial standing having a rating from A.M. Best Company equal to or better than A and must be included on the approved list of sureties issued by the United States Department of Treasury. The bond shall remain in effect at least five (5) years after the date when final payment becomes due. The surety bond must be in the form set forth in NCGS 44A-33, without any variations there from. The Contractor shall provide surety bond wherein Surety waives notice of any and all modifications, omissions, additions, changes and advance payments or deferred payments in or about the Contract, and agrees that the obligations undertaken by the Bond shall not be impaired in any manner by reason of any such modifications, omissions, additions, changes, and advance payments or deferred payments.

VI. INSURANCE REQUIREMENT

1. Indemnity

The Contractor hereby agrees to indemnify and hold harmless the County, its officers, agents, and employees, from and against any and all liability, claims, damages, demands, expenses, fees, fines, penalties, suits, proceedings, actions, and costs of actions, including attorney's fees for trial and on appeal, and for the preparation of same arising out of the Contractor's, its officers', agents', and employees' acts, or omissions associated with this Agreement.

2. Insurance Requirements

The Contractor, at its own expense, shall keep in force and at all times maintain during this Agreement:

- **Commercial General Liability Insurance**

Commercial General Liability Insurance, issued by responsible insurance companies authorized to do business in North Carolina and in a form acceptable to the County protecting and insuring against all the foregoing with coverage limits of not less than the following:

- \$1,000,000.00 per person and \$2,000,000.00 per occurrence, with \$2,000,000.00 aggregate; Property Damage Liability of \$1,000,000.00 per occurrence, with \$2,000,000.00 aggregate. Products and Completed Operations \$2,000,000.00. Coverage shall also be included for any contractual assumption of liability by the Contractor under any hold harmless agreements or indemnification agreements provided elsewhere in these specifications. Policy must include coverage for all operations including explosion, collapse and underground damage hazards with the same limits as specified above. Aggregates shall apply on a “per job” basis.

- **Automobile Liability Insurance**

The Comprehensive Automotive Liability Insurance coverage is to be on an occurrence basis, and is to include coverage for owned, hired, leased and non-owned vehicles, minimum limits as follows:

- Bodily Injury Liability, \$1,000,000.00 each person, \$1,000,000.00 each occurrence; Property Damage Liability, \$1,000,000.00 each occurrence.

- **Workers’ Compensation Coverage and Employer’s Liability Insurance**

- Full and complete Workers’ Compensation Coverage, as required by N. C. law and Employer’s Liability Coverage in an amount not less than \$1,000,000 to cover all employees not covered under the State Worker’s Compensation Act. Coverage shall include a waiver of subrogation in favor of the County.

- **Insurance Certificates**

Annually, the Contractor shall provide the County with Certificate(s) of Insurance on all the policies of insurance and renewals thereof in a form(s) acceptable to Camden County. Said Commercial General Liability policy shall provide that the County be an additional named insured. The County shall be notified in writing of any reduction, cancellation or substantial change of policy or policies at least thirty (30) days prior to the effective date of said action.

- Contractor shall include all subcontractors as insureds under its policies or shall furnish separate certificates for each subcontractor. All coverage for subcontractors shall be subject to all of the requirements stated herein. Commercial General Liability coverage shall include independent contractors' coverage, and the contractor shall be responsible for assuring that all subcontractors are properly insured.
- All insurance policies shall be issued by responsible companies who are acceptable to the County and licensed and authorized to do business under the laws of the North Carolina.

VII. EMERGENCY MANAGEMENT PLANNING AND TRAINING

As directed by the County, the Consultant shall provide:

- Comprehensive emergency management plans (e.g. COOP, EOP) to include plan development; review, and revisions
- Comprehensive mitigation programs to include development of mitigation plan(s), staff training, cost benefit analysis, project management, environmental review and staff augmentation.
- Development of a debris management plan – including identification of an adequate number of TDSRS locations. Staff training as necessary.
- Procurement assistance for debris removal contractors and other services as requested.
- Project management to include the formulation and management of permanent work projects, task force management, and County Commissions, Boards and Panels.
- Technical support and assistance in developing public information.
- Other training and assistance as requested by the County.
- Other reports and data as required by the County.
- Other emergency management and consulting services identified and required by the County.

VIII. EVALUATION CRITERIA
